

Date-01-12-2025

In table I have columns, like

1. Project name
2. Sector
3. Employee name
4. Job role
5. Total Project revenue

Here, I want to know revenue for per person, so

Steps:

1. Select **Transform data** in the **Home Tab**.
2. Power Query will open, then right click on table name on the left side of the screen, select Duplicate and rename it
3. Be in the info table, Go to transform tab, Click on group by,
Click on advance
Select project name
New column name – revenue
Operation – Average
Column – Total Project Revenue
4. Add aggregation – New column – no. of employees, Operation – count(row) – click ok.

	ABC Project Name	1.2 Revenue	1^2_3 No of employees
1	New Satellite launch	136400	6
2	Janm Hit	120800	4
3	Invest India	299100	2
4	Expand Reach	184400	3
5	Self Employ	246600	3
6	Connect large	281100	4
7	5G All	74800	2
8	Tech Launc	214000	4
9	Automate Sales	99200	5
10	Install Tower	293100	3
11	Make in India	127200	3
12	India Global	151000	2
13	Fund Startups	227400	3
14	Work Home	224600	3
15	Launch New	65600	2
16	Internet Hub	252900	3

5. First select Revenue column, then select no of employees using ctrl+select
6. Go to add column tab, Click on Standard, Then click on divide integer.

	Project Name	Revenue	No of employees	Integr-Division
1	New Satellite launch	136400	6	22733
2	Janm Hit	120800	4	30200
3	Invest India	299100	2	149550
4	Expand Reach	184400	3	61466
5	Self Employ	246600	3	82200
6	Connect large	281100	4	70275
7	5G All	74800	2	37400
8	Tech Launc	214000	4	53500
9	Automate Sales	99200	5	19840
10	Install Tower	293100	3	97700
11	Make in India	127200	3	42400
12	India Global	151000	2	75500
13	Fund Startups	227400	3	75800
14	Work Home	224600	3	74866
15	Launch New	65600	2	32800
16	Internet Hub	252900	3	84300

7. Rename as per person revenue
8. Comeback Performance details table, then click on Home tab, Then click on merge queries

Merge

Select a table and matching columns to create a merged table.

10. Select the Total Project revenue then removes it.

11. Click on Home and click on Close and apply.

12. Info table not necessary to do further dashboard so, Hide

13. Click on 3 dot right side of the data pane, and select Hide.

Based on this Transformation I just create simple dash board.
